

List of files that need to be allowed through the Firewall or Anti Virus Software

Article Applies to: Shortcuts Salon & Spa version V7

This is a list of exceptions that need to be allowed through the Firewall/Anti Virus Software:

- Shortcuts.exe
- ShortcutsServices.exe
- Shortcuts Communication Server (Server machine only, only valid for Shortcuts 7.3.18 and higher)
- LicenseServer.exe
- M4usms.dll
- POSOnlineMarketing.exe

Additional dll's if using SMS Global:

- CSHttpclient.dll
- Timerlite.dll
- M4ULogger.dll

These can be found in the following default location:

Shortcuts V7: C:\Program Files\Shortcuts Software\Point Of Sale

Technical information (not required for all Firewalls/Anti Virus Software)

This is a list of all ports that Shortcuts requires to be open in order for Shortcuts to function. **Note** not all ports are required on every installation as it depends on what Shortcut features are being used eg Online Booking if not used port does not need to be open

| Entry | Protocol | Port Number | Scope |
|--------------------------------------|----------|-------------|--------------|
| ShortcutsPOS TCP | TCP | 1433 | Local subnet |
| ShortcutsPOS UDP | UDP | 1434 | Local Subnet |
