

# VALUE OF FUTURE APPOINTMENTS

Tools > Reports > Appointments > Value of Future Appointments

The Value of Future Appointments report displays the value of booked appointments for each employee in an easy-to-read bar graph format, allowing you to easily compare figures between your employees.

The report also includes the percentage of appointments booked with each employee. This enables you to see which employees have highest volume of scheduled appointments, which may assist you in allocating future bookings.

This report can be used to gain insight into your expected service revenue. However, please note that the report may not reflect actual sales revenue as the figures are based on current service prices and booked appointments which may be subject to change.

## % OF APPOINTMENTS

The bookings assigned to each employee as a percentage of the total appointments currently booked.

## TOTAL VALUE OF BOOKED APPOINTMENTS

The total sell price for all the appointments booked with a particular employee. This takes into account employee level pricing, but does not account for series redemptions or other discounts.

**TOTAL**  
The total value of future appointments within the given date range for all employees.

**VALUE OF BOOKED APPOINTMENTS PER EMPLOYEE**  
This bar graph provides a visual representation of the 'total value of booked appointments' for each employee.

**VALUE OF BOOKED APPOINTMENTS PER MONTH**  
This bar graph displays the total value of booked appointments for each month included in the given date range.
