

# SALES TREND

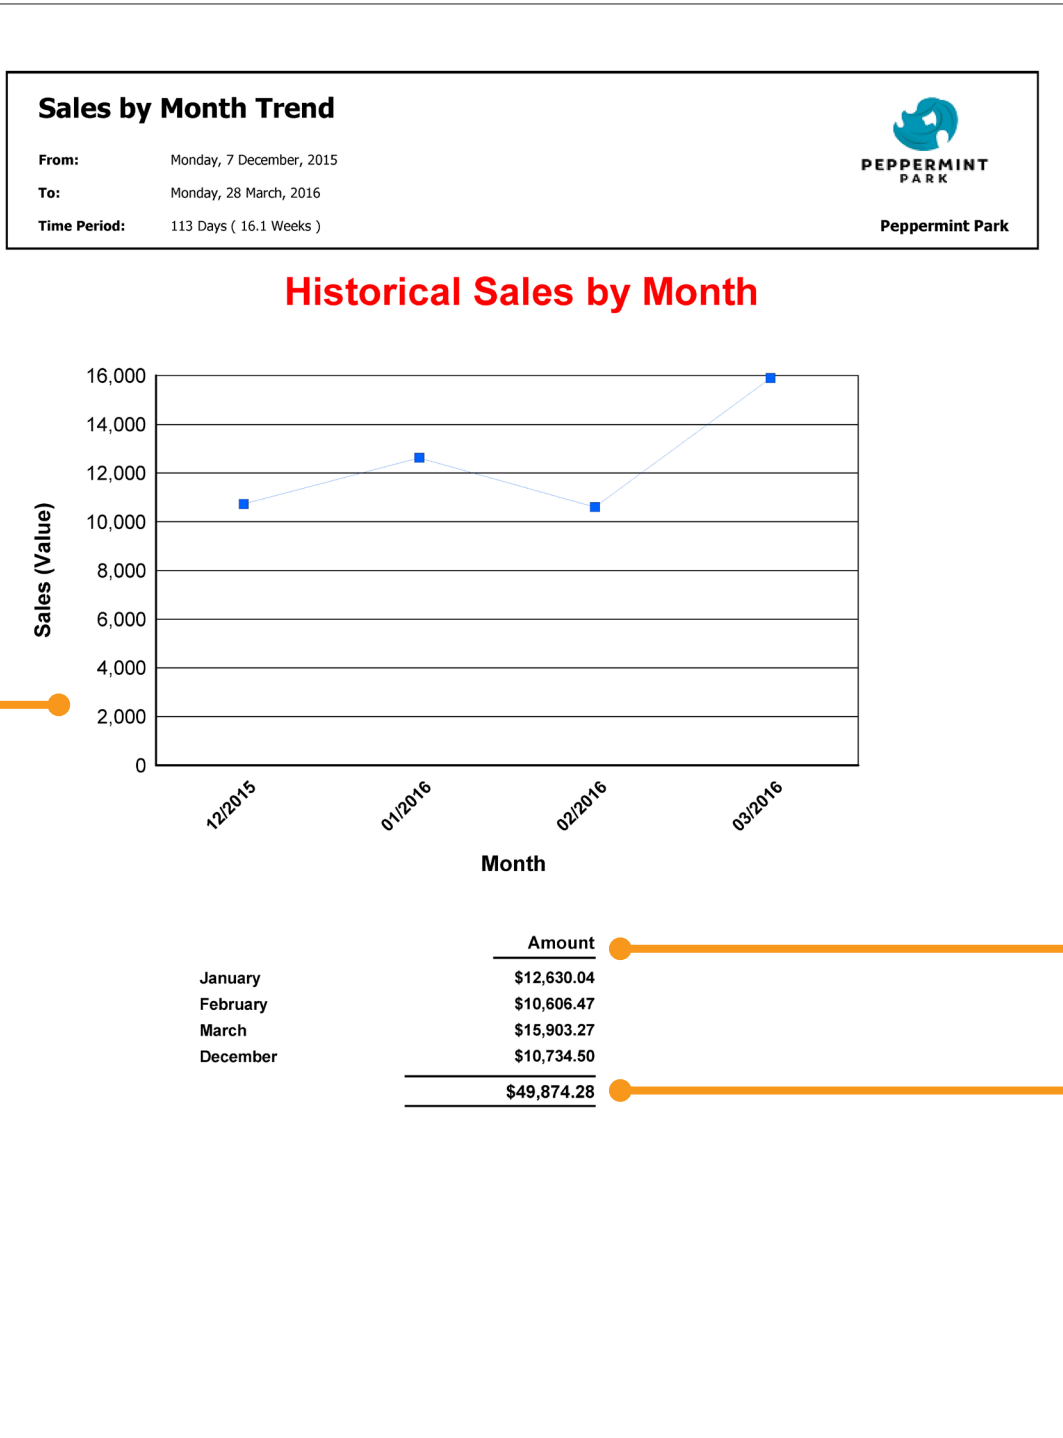

Tools > Reports > Business > Sales Trend

The Sales Trend report provides the business' sales trend by month over the given date range. The trend is displayed as a line graph, and below the graph is a list of your sales for each month and your total sales for the entire date range.

This report allows you to easily compare sales figures from month to month, which is useful for tracking seasonal trends and viewing sales patterns.

## HISTORICAL SALES BY MONTH

This graph shows your sales figures for each month, making it easy to see whether your sales have increased, decreased or stayed the same as the previous month.

**AMOUNT**  
This section lists your sales for each month within the given date range.

**TOTAL**  
This is your total combined sales for the given date range.
