TAKINGS COMPARISON

The Takings Comparison displays the number of client visits per day and the day's takings organised in a way that allows you to easily view and compare particular days of the week. Each row within the report represents one week, and at the end of the report you can view the total figures for the given date range. This report will help you analyse daily business trends, which can assist with planning and rostering for particular days of the week.

Tools > Reports > Business > Takings Comparison

START OF WEEK
This column shows the starting dates for each week included in the report.

NUMBER OF CLIENT VISITS
This column displays the number of client visits for a particular day.

DAILY TAKINGS
This column shows the total income for a particular day.

TOTAL
This row shows the total number of client visits and the total takings for the given date range, broken down by days of the week.

Business Takings Comparison
