

# TIPS

Tools > Reports > Employees > Tips

The Tips report is a graphical report which shows a breakdown of tips for each employee. The pie chart shows the value and percentage of tips for each employee.

The report also includes a list of tip transactions, organised by employee and date respectively. For each transaction you can view the client's name and the tip amount.

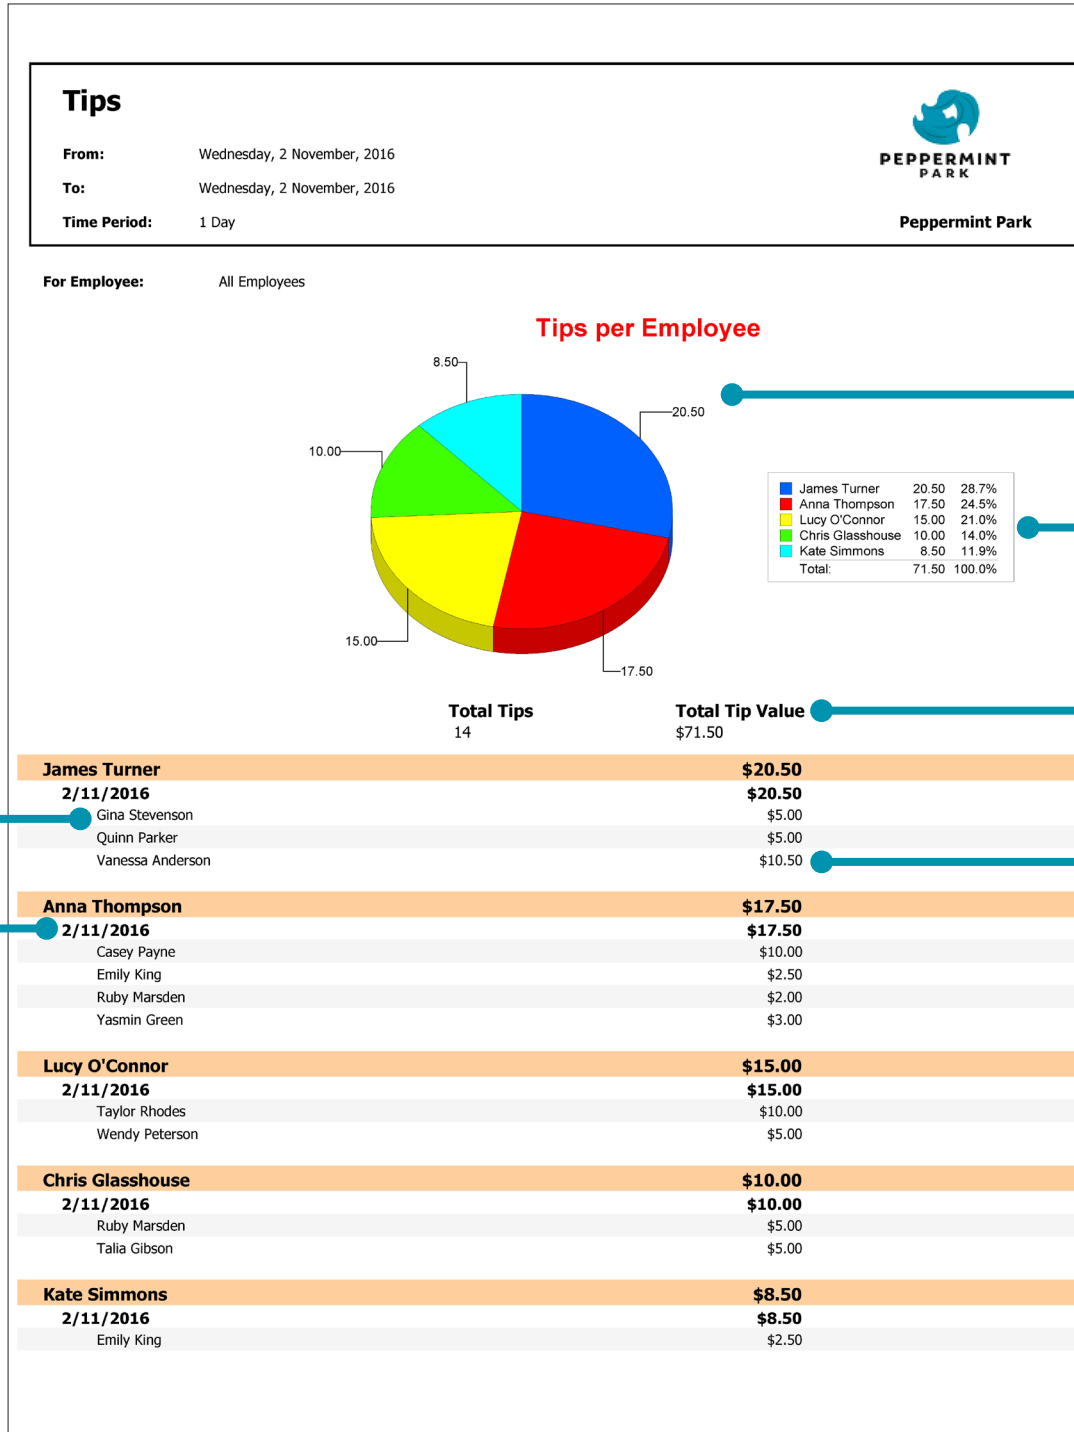

This report is useful for allocating tips to your employees, and can assist with analysing employee performance.

## CLIENT

Clients who provided tips are listed under the relevant employee's name.

## DATE

The date when the tip was given.
