SERVICE BREAKDOWN WITH LEVELS

Tools > Reports > Services > Service Breakdown with Levels

The Service Breakdown with Levels displays a list of your services, organised in a way that allows you to view particular service categories. For any services that have employee levels set up, the report shows a breakdown for each level. The report displays the service duration, break duration, the service price, and any points associated with the service.
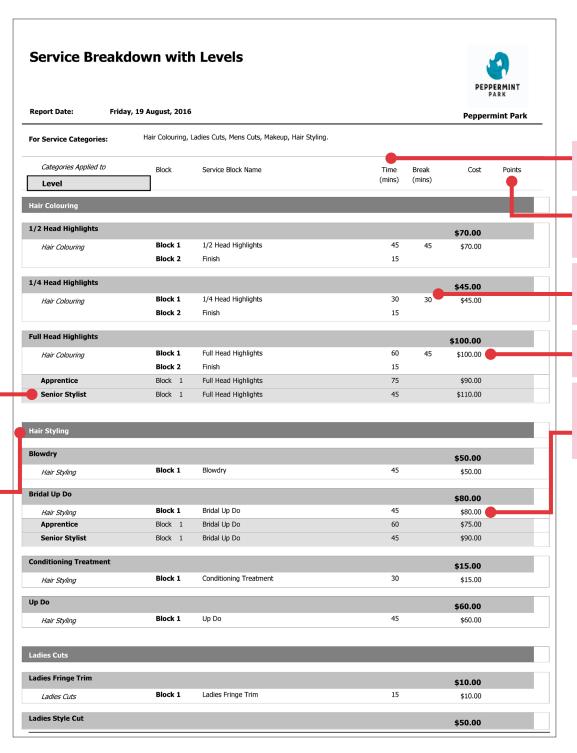

This report allows you to easily compare current service prices and durations for different employee levels, which may assist you with updating service details for particular levels.

EMPLOYEE LEVELS
Any employee levels that have been set up for this service will be displayed, along with specific details for that level.

SERVICE CATEGORY
Services are grouped by service category.
